EVENT REPORT

26 orders given.
22 orders counted against the administration limit (25).
Space Dragons is now a traveller administrator race
DEIT-3 [P138] is now Dragonhome [P138]

PHASE 1:

C138(SD) Colony builds S0103(SD) Explorer at H1414
C138(SD) Colony builds S0104(SD) Explorer at H1414
C138(SD) Colony builds S0105(SD) Explorer at H1414
C138(SD) Colony constructs 20 research
C138(SD) Colony constructs 16 industries
S0103(SD) Explorer starts to move from H1414 to H1314
S0104(SD) Explorer starts to move from H1414 to H1315
S0101(SD) Scout starts to move from H1414 to H1415
S0105(SD) Explorer starts to move from H1414 to H1514
S0100(SD) Corvette starts to move from H1414 to H1315
S0102(SD) Scout starts to move from H1414 to H1515

PHASE 3:

S0102(SD) Scout moves from H1414 to H1515
S0104(SD) Explorer moves from H1414 to H1315
S0103(SD) Explorer moves from H1414 to H1314
S0101(SD) Scout moves from H1414 to H1415
S0100(SD) Corvette moves from H1414 to H1315
S0105(SD) Explorer moves from H1414 to H1514

PHASE 4:

Exploration report on H1315 from S0100(SD) Corvette:
YKHV-4 [P126]
type: barren size: 50 minerals=3
YKHV-5 [P127]
type: gas giant size: 0 minerals=3
S0104(SD) Explorer starts to move from H1315 to H1214
S0101(SD) Scout starts to move from H1415 to H1416
S0103(SD) Explorer starts to move from H1314 to H1313
S0102(SD) Scout starts to move from H1515 to H1614
S0105(SD) Explorer starts to move from H1514 to H1513

PHASE 5:

S0100(SD) Corvette starts to move from H1315 to H1316

PHASE 6:

S0101(SD) Scout moves from H1415 to H1416
S0105(SD) Explorer moves from H1514 to H1513
S0102(SD) Scout moves from H1515 to H1614
S0103(SD) Explorer moves from H1314 to H1313
S0104(SD) Explorer moves from H1315 to H1214

PHASE 7:

S0103(SD) Explorer starts to move from H1313 to H1212
S0105(SD) Explorer starts to move from H1513 to H1512
S0104(SD) Explorer starts to move from H1214 to H1115
S0100(SD) Corvette moves from H1315 to H1316
S0101(SD) Scout starts to move from H1416 to H1417
S0102(SD) Scout starts to move from H1614 to H1714

PHASE 8:

Exploration report on H1316 from S0100(SD) Corvette:
SRCQ-1 [P132]
type: sub-terran size: 55 minerals=2

PHASE 9:

S0105(SD) Explorer moves from H1513 to H1512
S0103(SD) Explorer moves from H1313 to H1212
S0101(SD) Scout moves from H1416 to H1417
S0102(SD) Scout moves from H1614 to H1714
S0100(SD) Corvette starts to move from H1316 to H1415
S0104(SD) Explorer moves from H1214 to H1115

PHASE 10:

Exploration report on H1417 from S0101(SD) Scout:
VMKG-2 [P155]
type: terran size: 65 minerals=1
VMKG-4 [P156]
type: sub-terran size: 55 minerals=2
Exploration report on H1714 from S0102(SD) Scout:
CPSO-4 [P144]
type: minimal terran size: 30 minerals=3
CPSO-5 [P145]
type: gas giant size: 0 minerals=4
S0105(SD) Explorer starts to move from H1512 to H1511
S0104(SD) Explorer starts to move from H1115 to H1014
S0103(SD) Explorer starts to move from H1212 to H1211

PHASE 11:

S0101(SD) Scout starts to move from H1417 to H1418
S0102(SD) Scout starts to move from H1714 to H1813
S0100(SD) Corvette moves from H1316 to H1415

PHASE 12:

Exploration report on H1415 from S0100(SD) Corvette:
Nothing of interest found.
S0103(SD) Explorer moves from H1212 to H1211
S1504(BJ) Scout moves from H1418 to H1417
S0104(SD) Explorer moves from H1115 to H1014
S0105(SD) Explorer moves from H1512 to H1511
